Hi Karolina,

I just heard back from Darryl Adams and Rey Rivera (from OP) that once the FR document is digitally signed by the Administrator, the Director of the Regulatory Management Division (RMD), which is in OP, provides the signed copy to the Federal Register liaison Team and they process the document for submittal to the Office of the Federal Register. I had heard conflicting things from OAR early on about who would take the lead on this, so it's good to finally get some clarification.

I am still working on gathering the files that we need to add to the docket for the TX RH action, and will get those to you later today.

Thank you for all your help on this!

Hi Dayana,

Yes, I can add your files to your docket. Let me know what file names you want for them.

And thank you for checking with Darryl.

Hi Karolina,

I noticed that it looks like you recently have been posting the necessary files to the docket for our Federal Register notices. If this is the case, would you be able to help us post the files to the docket for the Texas RH BART action that just got signed yesterday. There are around 6 files that we need to add to the docket.

I'm waiting to hear back from Darryl Adams (in OP) if the Region needs to get the signed electronic file of the FRN to the Federal Register liaison or if it is OP who takes care of this. From the instructions for the new process Michael shared with us, it wasn't entirely clear who is the lead for this step of the process. I will let you know when I hear back from him.

Thank you!
